I. Statement of Reasons for Allowance:

The following is an examiner's statement of reasons for allowance:

The prior art cited herein fails to disclose an electronic device that includes a storage unit for storing map data including figure data formed of at least shape point coordinate array data, an execution for executing given processing based on the map data stored in the storage unit, a reception unit for receiving update information supplied from an outside, the update information including specifying information for specifying updated figure data and new figure data, an update unit, the electronic device comprising a determination unit for determining whether an initially-continuous figure has a discontinuous portion in a connection portion between the new figure data and an adjacent figure data, wherein, after updating by the update unit, the adjacent figure data is not updated in the map data stored in the storage unit and is adjacent to the new figure data, and a shape correction unit for moving, when the initially-continuous figure is determined to have the discontinuous portion in the connection portion, at least one of an end shape point of the new figure data and an end shape point of the adjacent figure data, wherein each of the two end shape points is included in a plurality of shape points and corresponds to the discontinuous portion, so as to bring the two end shape points into correspondence, wherein a shape-corrected map data that is shape-corrected by the shape correction unit is stored in the storage unit or both of determining by the determination unit and moving by the shape correction unit are executed when the map data is read from the storage unit in accordance with executing the given processing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

II. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ninagawa discloses a map data selection supporting device and map data processing system, and map data processing device including the same.

Miyahara discloses a satellite navigation system of which map data are partially updateable.

Heimann discloses a method and system for updating digital road maps.

Ando discloses a map data processing apparatus and method and map data processing system.
